

CLARIFICATION QUESTIONS ON MATTER E

In order to facilitate discussion at the hearing sessions, it would be helpful if the Council would provide, in advance, a full, written response to two extracts from the hearing statements from other participants, as follows:

1. Section A of the representation from Project Fields (S Webb), concerning the BCC consultation procedures; and
2. The representations from RPS (on behalf of SCCT & BVGS) under Question 4(a), sub-heading *Sustainability Appraisal* (paras 4 to 20), concerning legal compliance of the BCC with the SEA Directive.
