

Consumption of Aggregates in Birmingham 2009

	Sand and Gravel	Crushed Rock	Total
Former West Midlands County	1,319	903	2,222
Birmingham (40% of West Midlands County Total)	528	361	889
Allowance for Secondary Aggregates (28%)	205	140	345
Total for Birmingham	733	501	1234
20 year requirement based on this annual rate	14,660	10,020	24,680

This assessment is based on table 11 of the Collation of the Aggregate Minerals 2009 Survey. Figures are in thousands of tonnes.

The Birmingham figure is calculated on the basis that Birmingham's share of the West Midlands total will be proportional to its share of the population.

The secondary aggregate allowance is based on the MPA's assumed national percentage of 28%.
