2.3 Analysis on Initial Assessment

The initial screening has demonstrated the robustness of the Corporate Charging Policy, in conjunction with the Star Chamber Strategy and the transparent method by which BPS seek to maximise income for BCC is equitable. This has eliminated the potential for discrimination or adverse impact. All opportunities to promote equality in the context of maximising income for BCC have been taken.

3 Concluding Statement on Full Assessment

Market intelligence and the Crown Commercial Services (CCS) Framework CRM 928 rates were compared and considered when looking at the projected demand for the service and the level of increase which can be levied in order to achieve budgetary requirements.

The corporate charging policy in conjunction with the Star Chamber approach is a method by which consultation with Members will address the potential for inequality when considering the new fee base for 2014/15. The impact on the market and economy has been considered along with the opportunity for all members of the community to have access to the services and assets provided by Birmingham Property Services. All opportunities to promote equality in the context of maximising income for BCC have been taken.

The fees and charges set out in Appendix A will contribute to the 2014/15 budget requirements and the Corporate Charging Policy.

Addendum: "Review date" A review date of 1 January 2015 has been set to facilitate the process of setting the 2015/16 BPS fees and charges. Based on the outcomes of the initial equality assessment there is no requirement to proceed to a full assessment.
