Dear Sir

Birmingham Development Plan 2031

I am writing to you as I am concerned that in spite of nearly 6,000 objections to the above plan following the consultation period, the Council appears to think that none of them are worthy of sufficient consideration to make a difference to the Plan.

It seems that Birmingham City Council is happier to listen to the developers and land owners than to residents who are aware of local issues.

I hope the Inspector will be able to look into this at the Public Examination.

Yours faithfully

J I Turner
