Dear Mr Kemp

Ref: Birmingham Development Plan

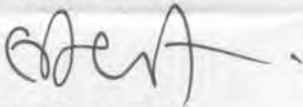

Ahead of the public examination of the above plan I am writing to register my anger and disappointment that none of the residents comments in relation to the plan have been taken into account.

I believe there were nearly 6000 comments relating to all aspects of the plan and in their arrogance Birmingham City Council submitted it completely unchanged.

The plan would be a disaster for the area – roads, schools, health – none of these issues are addressed in realistic detail. They are already under tremendous pressure in the area without another 6000 houses! Added to this is the loss of the small remaining part of Birmingham's Green Belt – and that would be a tragedy.

I urge the inspector to stay true to the National Planning Policy and take into account the views of the local residents.

Yours sincerely

Elaine Clueit
