

Front end loading skips

The Front End Loading skips service is a clean and cost effective method of refuse disposal. This service is ideally suited to customers who produce large quantities of easily compactable waste such as hotels, industrial parks, factories, schools, hospitals and large retail outlets.

- Modern containers situated on customers premises.
- 10 cubic yard capacity.
- Easy to load with large side door.
- Suitable for light, non hazardous compactable waste.
- Container emptied on site to a requested schedule.
- Extra collections can be arranged.
- Enables customers to comply with their “Duty of Care” under the EPA 1990.
- Skips can be sprayed in customer’s livery.

NB: Minimum requirement of one collection per fortnight. Not suitable for building waste, concrete, soil or brickwork.

Container dimensions	Height	Length	Width
10yd ³ (7.6m ³)	2.12m	2.15m	2.02m
