

# Rear end loading skips

The Rear End Loading skip service offers a clean and cost effective solution to the disposal of large volumes of commercial waste. Ideally suited for use in industrial parks, factories, hospitals and large retail outlets. The container is available with a lockable lid and door to ensure safety and security.

- Modern containers situated on customers premises.
- 14 cubic yard capacity.
- Easy to load with large rear door and retractable lid.
- Suitable for light, non hazardous compactable waste.
- Container emptied on site to a requested schedule.
- Extra collections can be arranged.
- Enables customers to comply with their “Duty of Care” under the EPA 1990.
- Skips can be sprayed in customer’s livery.

NB: Minimum requirement of one collection per fortnight. Not suitable for building waste, concrete, soil or brickwork.

Rear end loading skip	Height	Length	Width
14yd <sup>3</sup> (9.2m <sup>3</sup> )	1.85m	4.15m	1.81m

  

Skip	Height	Length	Width
14yd <sup>3</sup> (9.2m <sup>3</sup> ) - open	1.73m	3.68m	1.82m
