

Business Energy Efficiency Grants Programme (BEEGP) Procurement Guidance Notes

Whilst the information below is aimed to be helpful guidance to assist the Grant Recipient when considering their procurement obligations, Grant recipients should be aware that the grant is part funded by The Department of Energy Security and Net Zero (DESNZ) and Department for Levelling Up (DLUHC) administered by Birmingham City Council (BCC) is subject to the Public Procurement Regulations. Grant Recipients are advised to refer to the UKSPF Guidance for full guidance as to the extent of the regulations they are subject to and if necessary, obtain independent procurement advice. Assuming that the Grant Recipient is not a contracting authority, they will still be required to comply with the National Rules, details of which are contained within UK Procurement Law Guidance.

It must be noted that the procurement process, through direct award, quotations or tenders can be commenced at your own risk and should not be reliant upon receipt of the grant, but the Grant Applicant must not enter into any financial or contractual arrangement with those bidders before the awarding of the grant and most definitely not before the date that the Funding Agreement is signed by the Grant Recipient. To be clear, any expenditure prior to the date that the Funding Agreement is signed, dated and returned cannot be claimed.

As this programme is managed by Birmingham City Council, a minimum of three written quotations are secured and provided with your application for all expenditure* above £2,499 along with evidence the relevant process below has been followed. It is seen by Birmingham City Council as a good practice that should be adopted to show that a single quotation has not been accepted and the relevant procurement competition process explained below has been adopted. This may, in the event of an audit, which could take place over a 10-year period, provide some safeguard to your decision made on procurement in the longer term. For all expenditure, the suppliers must not be persons or businesses connected to your business, directors or shareholders.
