

## 2011 Census: Key Statistics for Birmingham and its constituent areas

KS404 Car or Van availability

This table is part of the 'Key Statistics for local authorities and local areas in England and Wales', the first release of the key statistics that add detail to the population estimates from the 2011 Census of Population for England and Wales that were published in July 2012.

This workbook provides Key Statistics for Birmingham Districts, wards and other selected areas wards as at census day, 27 March 2011.

*Wards are based on 'Best Fit' approximations calculated by the Office for National Statistics.*

*Results for Birmingham wards are based on allocation of whole Census Output Areas.*

*Data for any Census Output Area that is split by a new ward boundary are allocated to the ward that contains the greatest share of its population.*

### Notes and Definitions

1. The main population base for outputs from the 2011 Census is the usual resident population as at census day (27 March 2011). Although the population base for enumeration included non-UK short-term residents, these are not included in the main outputs from the 2011 Census, but are analysed separately. All outputs, unless specified, are produced using only usual residents of the UK. For 2011 Census purposes, a usual resident of the UK is anyone who, on census day, was in the UK and had stayed or intended to stay in the UK for a period of 12 months or more, or had a permanent UK address and was outside the UK and intended to be outside the UK for less than 12 months.
2. Further information about the census estimates, including details about the methodology used, information about data quality and a range of supporting information are available on the ONS website at <http://www.ons.gov.uk/census>

## Definitions

### Cars or vans

The number of cars or vans that are owned, or available for use, by one or more members of a household. This includes company cars and vans that are available for private use. It does not include motorbikes or scooters, or any cars or vans belonging to visitors.

The count of cars or vans in an area relates only to households. Cars or vans used by residents of communal establishments are not counted.

Households with 10 or more cars or vans are counted as having only 10.

Responses indicating a number of cars or vans greater than 20 were treated as invalid and a value was imputed.

### Household

A household is defined as one person living alone, or a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area

A household must contain at least one person whose place of usual residence is at the address. A group of short-term residents living together is not classified as a household, and neither is a group of people at an address where only visitors are staying.

## Geographic information

Information about the geographic methods and principles used to produce 2011 Census results can be found at <http://ons.gov.uk/ons/guide-method/geography/products/census/index.html>
