Statement of Evidence for Path Claim BAP 148

- 1 The north-west end of the original route (from Church Road) was created by the Sheldon Inclosure Award 1813, across allotment No.72. (Held by the City Council in the Central Reference Library.)
- 2 A track is shown on the first edition of the Ordnance Survey six inch map (1887), although not quite in the same position.
- 3 The remains of the footpath is shown on the Ordnance Survey 1/25,000 sheet SP18 Birmingham (East) of 1951 (major roads revised 1977) going south-east from the back of the houses in Chaffcombe Road. No Diversion Order, however, has been found.
- 4 A passageway, and track, linking to the northern end of this remaining path, however, is shown on the Ordnance Survey Pathfinder sheet 934 of 1986, with a link from the south end onto the next estate road, across a footbridge.
- 5 This path generally has a tarmac surface, with some modern street lights, a wheelchair kissing gate off Chaffcombe Road, and concrete bollards at the Parkdale Road end.
- 6 The route is recorded on the (undated) City Council map of public rights of way, although the west end turns south to the church, rather than north.
- 7 It is considered, therefore, that it is reasonable to allege that the route subsists as a public footpath and should be recorded as such on the Definitive Map.
